The Cuyahoga County Board of Elections Meeting began at 9:30 a.m. Hereinafter referred to as the CCBOE/Board. Chairman Curtis noted that all Board Members were in attendance.

Agenda Item 1: Approval of the minutes from the August 19, 2024, Board Meeting

Chairman Curtis moved to approve the minutes from the August 19, 2024, Board Meeting; Board Member Davis Chappell seconded. The motion passed.

Agenda Item 2: Acknowledgment of Secretary of State Directives: Directive 2024-16: Removal of Non-Citizen Records; Directive 2024-17: Examination and Verification of Petitions from Independent Candidate for President and Vice President Filed with the Secretary of State's Office

Chairman Curtis moved to acknowledge Secretary of State Directives: Directive 2024-18: The Data Analysis Transparency Archive Act (DATA Act) Implementation; Directive 2024-19: 2024 General Voter Records Maintenance Program; Directive 2024-20: Ballots for November 5, 2024, General Election; Directive 2024-21: Enforcement of Absent Voter's Ballot Provisions and Compliance with State and Federal Laws; and Directive 2024-22: Expedited Canvass and Certification of the November 5, 2024, General Election; and revised Directive 2024-22: Expedited Canvass and Certification of the November 5, 2024, General Election; Board Member Davis Chappell seconded. The motion passed.

Narrative that is underlined in the CCBOE minutes relates to a motion that was acted on by the Board.

Director Perlatti stated that the voter registration database was updated in order to incorporate categories listed in Directive 2024-18. Testing is almost complete and is working properly. DIMS had not been updated a number of years ago.

Moving to Directive 2024-19, Director Perlatti explained that the General Voter Records Maintenance Program is not a cancellation; this action is sending a notice to voters for four years from now. Board Member Davis Chappell clarified that this action begins with the next period of voter records maintenance and will be revisited in 2028. Director Perlatti affirmed and stated that registered voters with a lack of voter activity will be sent a letter indicating that their registrations may be subject to cancellation in four years if there is no voter activity.

Directive 2024-20 defines the order of the contests on the ballot.

Director Perlatti advised that the revised Directive 2024-22 seems to be intended to replace Directive 2024-20 because they are related. The Board should acknowledge the original Directive 2024-22 and the revised Directive 2024-22.

Directive 2024-21 refers to the use of the BOE drop-box at the Hughes Building. This directive states that anyone dropping off a close family member's ballot to the BOE must submit a signed attestation form. The definition of close relatives remains the same under the Ohio Revised Code. Prior, anyone on that list could put a family member's ballot into the drop box.

Board Member Stickan clarified that this Directive does not change who may submit a ballot but adds the signed form for those returning a family member's ballot. Director Perlatti stated that is true but they may not put it in the drop box -- a signed form must be submitted to BOE staff. The drop box is required to be open 24 hours per day when Early In-Person (EIP) voting begins. However, that drop box is not staffed outside of EIP hours and therefore the form will not be available during that time. Director Perlatti stated that this is a big change this close to the election and is a substantial undertaking that will be a fluid process.

Director Perlatti stated that a person providing assistance to a disabled person is not within the description of the close family. Board Member Davis Chappell inquired whether the court had identified whether disabled voters may have a designee to deliver their ballot. Mark Musson, Prosecutor, said that the court did not. Board Member Davis Chappell said this was triggered as a result of the lawsuit. Mr. Musson advised that the court enjoined enforcement of prohibition against returning the ballot from someone else. In addition to members designated by statute, federal law allows disabled voters to have anyone of their choice deliver their ballot. Nothing in the order designated the deliverer of the ballot.

Board Member Davis Chappell expressed concern that the attestation form is only a requirement for voters who are disabled or who have other family members deliver their ballots. There are many unattended U.S. Post Office drop-box receptacles that do not require the completion of an attestation form.

Mr. Musson explained that the Directive stated that all individuals who are delivering ballots for a family member or disabled voter may either mail the ballot to the County Board of Elections or return their ballot to a County Board of Elections official at the County Board of Elections office and complete the attestation form. The Directive only applies to delivering the ballot to the drop-box at the BOE office.

Board Member Davis Chappell noted that the Directive stated that the security of the delivery of ballots was important, but she was concerned that voters who elect to use the drop-box at the BOE will have to go through an extra process. She inquired how the BOE would administer this process, who would issue the form, how

many forms might be anticipated and what ballots would be counted if the form is not completed. The biggest concern is what happens to a ballot if there is no designated form. To date, the BOE has no instruction on this question. The SOS should provide clarification regarding these issues. How will the BOE inform voters regarding the designee form? The Street Collection Plan does not indicate how this plan will be administered.

Director Perlatti stated that the Ohio Association of Election Officials (OAE) is planning to send a letter to the SOS asking for clarity on a host of questions, including what happens to a ballot when a person does not complete a form. The Directive does not provide guidance procedurally. The biggest issue is making sure no voter is disenfranchised for failing to complete the form. He expressed concern that there is an equal protection issue because some voters have the ability to utilize unattended drop-boxes through the U.S. Post Office without completing a form.

In terms of volume, during the last Presidential Election in 2020, 129,612 vote-by-mail ballots were returned to the BOE via the drop-box and a supplemental drop-off box at Campus International. There are no statistics regarding how many ballots each individual dropped off. Director Perlatti stated that anecdotally, many voters dropped off more than one ballot at a time. During that election roughly 40% of voters voted by mail.

While the BOE would have staff available during EIP hours, ballots are also returned via the drop-box after hours as well. 250,000 ballots or more are anticipated to be cast by mail. Some voters prefer to deliver it to the BOE directly rather than through mail.

Such volume could mean 100,000 ballots would be returned in the drop-box, which would necessitate That many people are then required to park to come into the building and sign the form. Director Perlatti stated that the EIP Collection Plan Proposal in Agenda Item 3 does not take this aspect into account because it was developed before the Directive was issued. Staff must be creative to determine how it impacts this plan. Cuyahoga County has been the highest vote-by-mail county in the state since 2008; applications are coming in at a high rate. Staff has ideas how to administer the plan and incorporate street collection.

Board Member Davis Chappell inquired how street collection would be administered since the Directive states that voters who are required to complete the designee form must come inside the BOE building, where the voter assistant will be asked to complete the attestation form. Chairman Curtis stated that the SOS must provide clarification on this language due to logistical issues created by it.

Director Perlatti stated that this Directive impacts parking as well because the BOE does not have the space or resources for all of the voters impacted by the attestation form to go inside the building to process the form. Board Member Stikkan stated that the designee form is a requirement and there should be have a plan for that. However, it is unclear how many people drop off multiple ballots because it has not been tracked. Obtaining more information is important and this creates a different approach to street collection but it is possible to strike a balance of making sure these ballots are legitimately being cast. She stated that it may be prudent to use the media to raise awareness of the requirements of the drop-box.

Board Member Davis Chappell was curious what may be the driving numbers for this decision because there have been some instances of people bringing more than a few ballots but it is not a significant number. The vote must be secure but not at the expense of burdening the voters and potentially disqualifying their votes if they do not have the form. Further instruction from the SOS is needed because the Directive says boards of elections are required to provide the form. SOS instruction is needed on what happens if they do not take the form, whether it may be printable on the BOE website and others. Voters need to be notified timely so no one is disenfranchised over a procedural form.

Board Member Stickan stated that the Vote-by-Mail (VBM) application is a procedural form that must be filled out correctly and protocols are in place to address it when errors are made but she agreed that SOS clarification is needed. In 2020 there was an incident involving a woman who had a sizeable number of ballots. She does not want to burden voters either but the BOE must follow the law and make sure the public understands what the law is. These are the BOE's tasks and being proactive in terms of clarification and planning staff will be able to make a good plan.

Director Perlatti stated that the OAE0 will hold a meeting on Thursday and transmit a letter to the SOS for clarification. Board Member Davis Chappell stated that it is sensible to get the form and plan from the SOS rather than formulate a plan internally that they deny. She reiterated that the SOS needs to clarify whether voters need to come inside the building for the attestation form. Director Perlatti agreed.

Board Member Stickan inquired whether the BOE received SOS permission for street collection in the past. Director Perlatti stated that permission was granted for collection at Campus International in 2020.

Board Member Davis Chappell stated that this Directive imposes an obligation on the BOE to distribute the form but questioned whether others may distribute the forms with applications. We do not want a disqualification because the form was not distributed by the BOE. Board Member Stickan noted that the Directive does not address who must distribute the forms; it appears that obligation is imposed on boards of elections which would perhaps indicate that no one else could distribute the attestation form. That would be a problem due to the volume of voters. Board Member Stickan sought clarification on whether the form could be mailed.

Board Member Davis Chappell stated that clarification is also needed regarding whether bipartisan teams must be staffed to open the attestation form and whether extra staff should be dedicated for that purpose.

Agenda Item 3: Approval of Early In-Person Collection Plan Proposal

Chairman Curtis moved to approve the Vote-by-Mail Collection Proposal; Board Member Davis Chappell seconded. The motion passed unanimously.

Director Perlatti stated that this plan is to collect ballots outside the BOE office and complement the drop-box in the parking lot. The Campus International parking lot will be utilized for voter parking. This plan is intended to create a collection spot under a tent on East 30th Street. This plan is allowable under Directive 2022-45. Staff worked with the Cleveland Police Department, Public Safety and the Traffic Commissioner to keep people safe. Those parties are in agreement that this can be executed successfully by creating a rectangle in the turning lane. Concrete barriers would keep bipartisan staff safe and this operation would mostly mirror EIP hours. Law enforcement would be in or near the box for safety purposes.

Since Directive 2024-21 was issued, staff is tasked with determining how to run the program. The first thought was to have attestation forms in the box. Staff may create a section in the Campus International parking lot for anyone who needs to complete an attestation form because traffic in the street cannot be stopped for it. However, the SOS needs to provide clarity regarding whether voters physically need to come into the BOE office to complete the form.

Staff is considering additional signage for voters dropping off multiple ballots. However, such signage becomes problematic when many of the affected voters are driving and may not be able to read it. Instead the focus may be on diverting them to the parking lots.

Board Member Davis Chappell stated that this Directive is not intuitive with curbside voting if some voters are directed to come inside the building. If staff is confused then voters will be. The Directive seems antithetical to the curbside process now that designees are required to come inside the building. Director Perlatti stated that curbside voting is intended for voters who are physically unable to come inside the building to vote. They are typically driven to the building by another person. The driver comes in to notify staff that a curbside voter is in their vehicle. A bipartisan team goes outside to process the curbside voter.

Board Member Davis Chappell stated that the language regarding curbside voting needs to be clarified and this affects disabled voters. Bipartisan teams will need to distribute the attestation form and it will be a logistical nightmare unless the SOS provides clarity to make sure there is no inadvertent disqualification of a voter's ballot.

Following conversation, the Board agreed that they were approving the general framework of the plan and any substantive changes could be incorporated into the plan based on input from the SOS. The Board agreed to move forward with the plan as outlined because it is important logistically. The Board may wish to offer additional questions or comments based on further SOS clarification.

Board Member Davis Chappell was concerned that Directive 2022-45 was still in effect rather than the BOE was given approval for the plan. Director Perlatti stated that he met with three SOS employees who understood what the BOE was doing with this collection plan.

Agenda Item 4: Acknowledgment of resignation from, and appointment to elected office

Chairman Curtis moved to acknowledge the resignation from, and appointment to elected office, as provided in the Board materials; Board Member Davis Chappell seconded. The motion passed unanimously.

Agenda Item 5: Certification of candidates for South Euclid Charter Review Commission Candidates to the November 5, 2024, Presidential General Election

Chairman Curtis moved to certify the candidates for the South Euclid Charter Review Commission Candidates to the November 5, 2024, Presidential General Election, as provided in the board materials, with a friendly amendment to eliminate the write-in candidate portion; Board Member Davis Chappell seconded. The motion passed unanimously.

Agenda Item 6: Certification of write-in candidates for the November 5, 2024, Presidential General Election

Chairman Curtis moved to certify the write-in candidates for the November 5, 2024, Presidential General Election, as provided in the Board materials with a friendly amendment to eliminate the top portion of the document so only the write-in candidates are shown; Board Member Davis Chappell seconded. The motion passed unanimously.

Agenda Item 7: Certification of remaining issue(s) for the November 5, 2024, Presidential General Election

Chairman Curtis moved to certify to the ballot the remaining issue(s) for the November 5, 2024, Presidential General Election; Board Member Stickman seconded. The motion passed unanimously.

Agenda Item 8: Approval of Resolutions and/or Vouchers for:

- a. **R2024-09-09-0006V - Pitney Bowes (funding of postage meter)**
- b. **R2024-09-09-0007V - USPS (funding of mailing permit)**
- c. **R2024-09-09-0008V - Clear Ballot Group (election support service days)**
- d. **R2024-09-09-0009V - Silverbacc Protective Services (private security for 2024 Presidential General Election)**

Chairman Curtis moved to approve items a) R2024-09-09-0006V – Pitney Bowes (funding of postage meter) and b) R2024-09-09-0007 – USPS (funding of mailing permit); Board Member McCafferty seconded. The motion passed unanimously.

Director Perlatti stated that every year the BOE applies postage to both a United States Postal Service account for mailing of ballots and an internal Pitney Bowes machine for mail. At the beginning of the year the Board approved a split of money to the accounts. This action would take the remainder of the postage allocation and apply it so the BOE can get through to the end of the year.

Chairman Curtis moved to approve item c) R2024-09-09-0008V – Clear Ballot Group (election support service days); Board Member Davis Chappell seconded. The motion passed unanimously.

Director Perlatti stated that implementation hours were included in the setup of Clear Ballot equipment. During that time the BOE pre-purchased service days to utilize for the November 2023 and March 2024 elections. Item R2024-09-09-008V would approve the presence of three Clear Ballot technicians on site from the Monday Night Organizational Meeting through the day after the November Presidential General Election in November to troubleshoot any issues that may arise and to assist staff with ballot coding.

Chairman Curtis moved to approve item d) R2024-09-09-0009V – Silverbacc Protective Services (private security for 2024 Presidential General Election); Board Member Davis Chappell seconded. The motion passed unanimously.

Director Perlatti stated BOE staff and the Sheriff's Department has been working on a security plan for the November election. Silverbacc Protective Services is an agency comprised of off-duty police officers that would supplement the security services that the Sheriff's Department would provide.

Director Perlatti explained that during EIP, one officer would be stationed at the Halle Building and four officers would be assigned to the Hughes Building. Specifically, at the Hughes Building, officers would be positioned at Euclid and East 30th Street, by the ballot-collection site and in the parking lot and sidewalk. At least two deputy sheriffs will be at the parking lot aprons daily to ensure cars and voters do not converge at the entrance. This is in addition to two protective services officers inside the building. Director Perlatti and LaTerra Brown, Fiscal Manager, will approach OBM to inform them that they will need to pay for these services.

Board Member Davis Chappell stated that the BOE will have no issues regarding security for elections. Director Perlatti stated that EIP and Election Day will be secure. On Election Day, the Sheriff's Department will have a full complement of personnel to ensure safety. The department conducted a trial run of November security during the March Primary. The BOE has done its due diligence with its security plan.

Agenda Item 9: Authorization to pay: 289 Voting Location Managers x \$275 = \$79,475; 312 Voting Location Deputies x \$275 = \$85,800; 3,171 Precinct Election Officials x \$250 = \$792,750; 150

Election Substitute Officials x \$100 = \$15,000 for the November 5, 2024, Presidential General Election

Chairman Curtis moved to approve the authorization to pay: 289 Voting Location Managers x \$275 = \$79,475; 312 Voting Location Deputies x \$275 = \$85,800; 3,171 Precinct Election Officials x \$250 = \$792,750; 150 Election Substitute Officials x \$100 = \$15,000 for the November 5, 2024, Presidential General Election; Board Member Davis Chappell seconded. The motion passed unanimously.

NEW BUSINESS

November 5, 2024, Presidential General Election Update:

Director Perlatti stated that the BOE may begin training poll workers sixty (60) days before the election. This past weekend the Poll Worker Department held its first training sessions with 357 people. The BOE has commitments from 3,345 people to serve as poll workers with a goal of 4,000 and an 85% placement rate. Staff is working diligently to meet that goal. Rovers, who assist with enforcement of the 100-foot rule for no campaigning and bring supplies are typically trained during the final 15 days before an election. A different approach was taken for this election and 130 of the 184 needed rovers have already been trained.

Absentee Voting Services had about 25,000 VBM applications which has increased to about 110,000. Voters are utilizing the SOS VBM application and the BOE has encouraged doing so. The SOS application contains a barcode which makes it easy to pull up a voter's registration in the database and process the request. Additionally, voters may print a VBM application from the BOE website which also contains a barcode. Director Perlatti explained that barcodes are preferable because they are unique to the voter application. Staff is currently processing these applications after a delay due to the DIMS upgrade. There is no concern that staff will catch up.

Board Member Davis Chappell inquired regarding the status of the BOE's Track My Ballot tool on its website. Director Perlatti explained that all boards of elections are required to have that tool; the BOE is working with Cuyahoga County IT and it will be active in the next week.

Board Member Davis Chappell stated that it is discouraging to hear college students say they cannot get their ballots and inquired what the BOE can do to make sure college students are not left out of this process. Director Perlatti stated that staff will have calls with Cuyahoga County colleges to have discussions with mail rooms. When mail is lost on campus, many times the Post Office successfully sends the material to the on-campus college mail room system where it gets lost. Students who live off campus at a residential address do not seem to have problems.

Board Member Stickan asked if staff is having conversations with the Post Office. Director Perlatti stated that the BOE has had a meeting with the Post Office regarding a host of issues.

Moving on in his report, Director Perlatti stated that the Election Support Department has secured all 289 polling locations for November. Eight (8) locations were changes from the previous election which encompasses twenty-two (22) precincts. Historically, this is a low number of changes.

The Voter Information Guide will begin to be mailed to voters next week, which also notifies voters of the polling locations and particularly any change in polling location. Maps will also be placed on the BOE website and staff will work with the media, elected officials and political parties regarding voter education.

Director Perlatti stated that the BOE has secured 10 properties in addition to the Hughes Building parking lot for EIP voting parking. On a daily basis at least 250 parking spaces will be available for voters. The Hughes Building lot will be for ADA voters only. Parking on weekends increases to around 400 spaces. This number is consistent with past elections. Tents and other activity will begin to be assembled on October 2 to prepare for EIP which begins on October 8.

Board Member Stickan inquired whether staff has a plan regarding campaigners being in the street or in front of cars. Director Perlatti explained that there will be a 20-foot by 80-foot tent on the north side of the building for voters waiting in line which will comprise six hundred (600) linear feet. Public Works will ensure that there are compliance spaces. He explained that it is safer because the voter line will be on BOE property and under a tent. Signage will make it clear that no campaigning will be permitted by this tent because it will be on BOE property. A separate tent will be on the west side of the parking lot for accessible voters. This plan will ensure that voters and cars do not mix.

Director Perlatti advised that staff imported and finished laying out the ballot on Friday. Proofing has been ongoing. He complimented the Ballot Department staff while Brian Cleary, Manager, has been out of the office for an extended time. There will be a three (3) sheet ballot across the County. Director Perlatti clarified that a three-sheet ballot means six (6) pages. This is large part due to the length of the language of Issue 1, which is over 900 words. The issue is so large that it will not fit on one side of the ballot. The English will be on one page, the Spanish will begin on that same page and conclude on the back of the page when the question is called. Voter education will be important for Issue 1 to avoid confusion. A three-sheet ballot also impacts processing and packing time. Poll workers may need to perform ballot cleanout twice per day instead of once.

Board Member Davis Chappell stated that when there are multi-page ballots there is a question about the capacity of voting machines. She questioned whether there may be any issues with the machines due to the extra volume. Director Perlatti advised that poll workers were trained in March to inform voters to pause between inserting sheets into the machine. Signage also instructs voters to pause before inserting the next sheet. In terms of capacity, a machine can take 10,000 sheets of paper before it needs to be cleared. A counter on the machine indicates how many sheets have gone through that poll workers will monitor. They will have a set time to check before cleaning out the machine. Poll workers will be cognizant to make sure voter traffic flows to all machines in a polling location rather than the closest.

Chairman Curtis asked whether there would be student poll workers for this election. Director Perlatti indicated in the affirmative. Chairman Curtis continued to state that provides an extra resource to make sure there is more than one poll worker for six voting machines.

Moving to the next topic, Deputy Director Kaloger stated that voter education is a year-round process. The library education and election integrity series began over the summer which highlighted checks and balances the BOE has in terms of voting by mail, voting on Election Day and the drop-box. The Community Outreach Department has been in the field at various festivals, home days and other functions educating voters. Another key aspect of voter education is the Clear Ballot voting machines. This will be the first time some voters will use them if they have not voted since these machines came into operation in the county in 2023. Voters will also be informed of the ID requirements that were not in place during the last presidential and gubernatorial elections.

The library education series will take place during the third week of September and includes visits to 10 libraries spread across the county, including Rocky River, Strongsville, Brecksville, Solon, Beachwood, Mayfield, East Cleveland and three locations in Cleveland. During that time voters will be educated

regarding the new voting equipment, the drop-box and Issue 1. Staff will work with the media to promote that series as well as publicizing the BOE's social media messages with municipal partners and local political parties.

Directive 2024-09 provides funding to boards of elections for readiness and preparedness for the November Presidential General Election. Those funds totaling \$109,000 will be partly utilized to purchase new poll worker manuals, laptops for trainers, equipment rentals and the election day experience. Signage required at polling locations will be displayed in a collapsible board placed near the check-in area that poll workers will easily assemble rather than taping the signage to walls. While the board will not be able to display all of the required signage, it will contain the most important ones and educate voters all in one place clearly visible to voters.

Director Perlatti noted that staff is preloading the boards with signage so the same information will be displayed at all polling locations.

Board Member McCafferty suggested that check-in poll workers are good resources for advising voters on issues including pausing before inserting pages at the scanners.

Board Member Davis Chappell asked whether staff has a checklist of the key things the BOE wants voters to know and whether that should be disseminated to media partners. Director Perlatti agreed and stated that he met with John Kosich from Channel 5, with whom he will meet once or twice per week regarding specific topics. He also stated that Facebook Live sessions on various pertinent topics would be scheduled as well. Media partners can use the video from Facebook Live to disseminate to other sources.

Deputy Director Kaloger stated that curbside was introduced in Ohio when not all polling locations were ADA accessible. Since then, all polling locations are required to be ADA accessible and curbside voting is available for voters who may not be able to physically enter the polling locations. This method of voting provides an opportunity to vote from their car. Some of the readiness funds previously mentioned will be utilized on portable easels placed by the polling location door that explains the curbside voting process with simple steps. A phone number will also be included if they have questions about curbside voting and if necessary, staff could contact a rover or poll worker.

Chairman Curtis thanked the staff for their public education efforts.

The Board adopted under common consent a resolution of commendation for Donna R. Pope for her twelve years of service to the BOE upon her retirement

Board Member Davis Chappell inquired whether the Board's meeting schedule would be revised and why the SOS issued a directive with an expedited certification schedule. Director Perlatti explained that expediting the certification schedule from three weeks to two weeks was due to the potential of a state-wide recount.

To stay in compliance with the expedited certification schedule of the November Presidential General Election, the Board rescheduled its Board Meeting scheduled for Tuesday, November 26 to Wednesday, November 20, 2024, at 9:30 a.m. The Board Meeting currently scheduled for November 18 also may need to be revised. That will be determined by the end of the week.

SUMMARY

- *Directive 2024-24* informs the CCBOE of the recent Memorandum Opinion and Order of the United States District Court for the Northern District of Ohio (the “court”) in *League of Women Voters of Ohio, et al. v. LaRose, et al.* (the “Order”).
- In this Opinion and Order, the Court found that a portion of O.R.C 3509.05, which limits the type of persons legally eligible to assist a voter with the return of an absentee ballot, violates Section 208 of the federal Voting Rights Act.
- The Voting Rights Act allows a disabled voter to be assisted by “a person of the voter’s choice.”
- As a result, a disabled voter may select any person to return their ballot, other than a voter’s employer or agent of the employer or officer or agent of the voter’s union.
- This Order is narrow and limited in scope to only disabled voters. All other voters who must follow the definition of a relative in O.R.C. 3509.05 if they choose to use another person to return their ballot.

Re: Administration, Implementation and Enforcement of R.C. 3599.21

SUMMARY

This directive informs county boards of elections (the "BOEs") of the recent Memorandum Opinion and Order of the United States District Court for the Northern District of Ohio (the "court") in *League of Women Voters of Ohio, et al. v. LaRose, et al.* (the "Order").¹ The court's Order is limited in scope but impacts administration, implementation and enforcement of Ohio's prohibition on ballot harvesting. Specifically, the State, its agents, and its employees have been enjoined from enforcing R.C. 3599.21(A)(9) or R.C. 3599.21(A)(10) against any disabled voter or against any individual who assists any disabled voter with the return of the disabled voter's absentee ballot.

BACKGROUND

Through this litigation, the League of Women Voters and an individual plaintiff challenged certain provisions of House Bill 458, adopted by the General Assembly and signed into law by the governor in 2023. Specifically, the plaintiffs challenged statutory provisions which limit the type of persons legally eligible to assist a voter with the return of an absentee ballot to either a qualified relative or a mail carrier.² The court determined that this restriction violates Section 208 of the federal Voting Rights Act, which allows a disabled voter to be assisted by "a person of the voter's choice."³

¹ *League of Women Voters, et al. v. LaRose, et al.*, 1:23-cv-02414 (N.D. Ohio) Memorandum Opinion and Order.

² See R.C. 3599.21(A)(9).

³ See 52 U.S.C. §10508.

To be clear, the court's Order is narrow and is limited in scope to disabled voters who wish to utilize someone other than a relative as defined by R.C. 3509.05 to assist them with the return of an absentee ballot. Specifically, the court enjoined the State and any of its agents or employees from administering, implementing, or enforcing of R.C. 3599.21(A)(9) and R.C. 3599.21(A)(10) "against any disabled voter or against any individual who assists any disabled voter."⁴ Thus, a disabled voter may select any person to return their ballot, other than the voter's employer or agent of that employer or officer or agent of the voter's union. See 52 U.S.C. §10508.

INSTRUCTIONS

Each board of elections must share this directive with its legal counsel, the county prosecuting attorney.

Consistent with the court's Order, a BOE may not administer, implement, or enforce R.C. 3599.21(A)(9) and R.C. 3599.21(A)(10) "against any disabled voter or against any individual who assists any disabled voter." Rather, a disabled voter may select any person to return their ballot, other than the voter's employer or agent of that employer or officer or agent of the voter's union.

Please see [Directive 2024-21](#) regarding procedures for the return of an absent voter's ballot.

Re: Revised Form of the Ballot for the November 5, 2024 General Election

SUMMARY

On September 16, 2024, the Supreme Court of Ohio issued its decision in *State ex rel. Citizens Not Politicians v. Ohio Ballot Bd.*, Slip Opinion No. 2024-Ohio-4547, regarding the summary ballot language for State Issue 1. The Court upheld the overwhelming majority of the summary ballot language approved by the Ballot Board. However, the Court did order the Ballot Board to revise two sections of the State Issue 1 summary ballot language for use in the November 5, 2024, general election. Pursuant to the Court's order, the Ballot Board met on September 18, 2024, to adopt the revised language.

This directive replaces the certified form of the official ballot attached to [Directive 2024-23](#), and the revised language **must** be used in the November 5, 2024, general election. In all other aspects, Sections I through VII of [Directive 2024-23](#) remain in effect. The attached Official General Election Ballot form must be used for all voting systems to present voters with the statewide issue.

The attached Official General Election Ballot form contains the exact ballot language to use for State Issue 1. Additional instructions on headings, ballot language, and percentage of votes are found in [Chapter 5 of the Election Official Manual](#).

As a reminder, this directive must be used alongside [Chapter 5 of the Election Official Manual and Directive 2024-09](#) when preparing ballots for this election. [Chapter 5](#) provides specific instructions on the following relevant subjects:

- Ballot format;
- Voter instructions;

- Ballot stubs;
- Questions and issues ballot;
- Ballot proofs;
- Bid requirements;
- Ballot quantities;
- Logic and accuracy testing;
- Public test.

INSTRUCTIONS

Reprogramming of the Election Management System

The boards of elections must reprogram their election management system to incorporate the revised ballot language for State Issue 1. Once these updates are performed, all logic and accuracy testing must be performed on all voting equipment utilized for the November 5, 2024, general election.

Please note that Secretary of State Export ID Codes transmitted to the counties through SharePoint on Friday, August 30, 2024 are still accurate codes.

Updating the Ballot Language for State Issue 1

The boards of elections must revise the ballot language for State Issue 1 to align with the official sample ballot. This includes, but is not limited to, updating the boards':

- Official ballot;
- Sample ballot;
- Remote ballot marking system;
- Website (including the 46-day Federal Write-In Absentee Ballot (FWAB) notice).

If you have any questions regarding this directive, please contact the Secretary of State's elections counsel at (614)728-8789.

Repeal constitutional protections against gerrymandering approved by nearly three-quarters of Ohio electors participating in the statewide elections of 2015 and 2018, and eliminate the longstanding ability of Ohio citizens to hold their representatives accountable for establishing fair state legislative and congressional districts. 2. Establish a new taxpayer-funded commission of appointees required to gerrymander the boundaries of state legislative and congressional districts to favor either of the two largest political parties in the state of Ohio, according to a formula based on partisan outcomes as the dominant factor, so that: <ol style="list-style-type: none"> A. Each district shall contain single-member districts that are geographically contiguous, but state legislative and congressional districts will no longer be required to be compact; and B. Counties, townships and cities throughout Ohio can be split and divided across multiple districts, and preserving communities of interest will be secondary to the formula that is based on partisan political outcomes. 3. Create the following process for appointing commission members: Four partisan appointees on the Ohio Ballot Board will choose a panel of 4 partisan retired judges (2 affiliated with the first major political party and 2 affiliated with the second major political party). Provide that the 4 legislative appointees of the Ohio Ballot Board would be responsible for appointing the panel members as follows: the Ballot Board legislative appointees affiliated with the same major political party would select 8 applicants and present those to the Ballot Board legislative appointees affiliated with the other major political party, who would then select 2 persons from the 8 for appointment to the panel, resulting in 4 panel appointees. The panel would then hire a private professional search firm to help them choose 6 of the 15 individuals on the commission. The panel will choose those 6 individuals by initially creating a pool of 90 individuals (30 from the first major political party, 30 from the second major political party, and 30 from neither the first nor second major political parties). The panel of 4 partisan retired judges will create a portal for public comment on the applicants and will conduct and publicly broadcast interviews with each applicant in the pool. The panel will then narrow the pool of 90 individuals down to 45 (15 from the first major political party; 15 from the second major political party; and 15 from neither the first nor second major political parties). Randomly, by draw, the 4 partisan retired judges will then blindly select 6 names out of the pool of 45 to be members of the commission (2 from the first major political party; 2 from the second major political party; and 2 from neither the first nor second major political parties). The 6 randomly drawn individuals will then review the applications of the remaining 39 individuals not randomly drawn and select the final 9 individuals to serve with them on the commission, the majority of which shall be from the first and the second major political parties (3 from the first major political 	<p>party, 3 from the second major political party, and 3 from neither the first nor second major political parties).</p> <ol style="list-style-type: none"> 7. If the commission is not able to determine a plan by September 19, 2025, or July 15 of every year ending in one, the following impasse procedure will be used: for any plan at an impasse, each commissioner shall have 3 days to submit no more than one proposed redistricting plan to be subject to a commission vote through a ranked-choice selection process, with the goal of having a majority of the commission members rank one of those plans first. If a majority cannot be obtained, the plan with the highest number of points in the ranked-choice process is eliminated, and the process is repeated until a plan receives a majority of first-place rankings. If the ranked-choice process ends in a tie for the highest point total, the tie shall be broken through a random process. 8. Limit the right of Ohio citizens to freely express their opinions to members of the commission or to commission staff regarding the redistricting process or proposed redistricting plans, other than through designated meetings, hearings and an online public portal, and would forbid communication with the commission members and staff outside of those contexts. 9. Require the commission to immediately create new legislative and congressional districts in 2025 to replace the most recent districts adopted by the citizens of Ohio through their elected representatives. 10. Impose new taxpayer-funded costs on the State of Ohio to pay the commission members, the commission staff and appointed special masters, professionals, and private consultants that the commission is required to hire; and an unlimited amount for legal expenses incurred by the commission in any related litigation. <p>If approved, the amendment will be effective 30 days after the election.</p> <p>SHALL THE AMENDMENT BE APPROVED?</p> <p><input type="radio"/> YES</p> <p><input type="radio"/> NO</p>

ADVISORY 2024-03 - Employing Bipartisan Elections Officials to Receive Absentee Ballots Outside of the Boards of Elections Offices

RELEASED: September 20, 2024

SUMMARY

- *Advisory 2024-03* serves as a clarification to Directive 2024-21, Enforcement of Absent Voter's Ballot Provisions and Compliance with State and Federal Laws.
- Board of elections are not only permitted, but highly encouraged, to develop and implement a streamlined, convenient drive-through ballot drop-off system during the in-person absentee ballot return period.
- The CCBOE, by a majority vote at the September 9 board meeting, approved its own drive-through ballot drop-off system to be used during most of the in-person absentee ballot return period to help alleviate traffic.

EXPLANATION

Boards of elections, by a majority vote of its board members, may implement a traffic mitigation plan to assist in the collection of absentee ballots at the boards of elections offices.

Below are the key requirements that must be met:

- At least two CCBOE employees, one Republican and one Democrat, must be paired together to collect the absentee ballots.
- An appropriate container into which the delivered absentee ballots will be received must be utilized.
- The CCBOE must set a schedule of days and hours during which bipartisan teams will be stationed outside to receive absentee ballots and publicize that schedule on the board's website and social media.
- The bipartisan team must require any person assisting another with the return of a ballot to complete Form 12-P: Absentee Ballot Delivery Attestation.

In addition, the CCBOE is also to provide the bipartisan team of employees with a sufficient supply "I Voted" stickers and an "election security sheet" to provide voters who utilize the drive-through ballot drop off.

ADVISORY 2024-03

September 20, 2024

To: All County Board of Elections
Board Members, Directors, and Deputy Directors

Re: Employing Bipartisan Elections Officials to Receive Absentee Ballots Outside of
the Boards of Elections Offices

BACKGROUND

This advisory serves as a clarification to Directive 2024-21, Enforcement of Absent Voter's Ballot Provisions and Compliance with State and Federal Laws. Boards of elections are permitted, in-fact highly encouraged, to consider as a best practice, developing a streamlined, convenient drive-through ballot drop-off system during periods of high-volume turnout. For example, some boards have successfully managed high-volume ballot return periods in the past by stationing trained, bipartisan teams of elections officials outside of the office of the board of elections to receive absentee ballots from voters or those delivering an absentee ballot on behalf of another, in a drive-through format.¹ In addition to the requirements and best practices discussed below, if a board is interested in discussing how to successfully do this, please feel free to give us a call or connect with another board that has done so in the past.

EXPLANATION

Boards of elections may consider, by a majority vote, implementing this traffic mitigation plan using permanent or temporary board employees who have undergone a criminal background check and received appropriate training (hereinafter, "board employees").

¹ "Outside the office of the board of elections" means *immediately* outside the office of the board of elections, not remote locations miles from the office of the board. So, boards may station bipartisan teams of employees directly in front of the office of the board, behind the office of the board, right around the corner from the office of the board, or across the street from the office of the board, whichever of these options works best considering the vehicular traffic flow around the office of the board.

If the board members vote to utilize such a plan, the board must also determine and document how the following requirements will be met:

- (1) At least two board of elections employees, one Republican and one Democrat, must be paired together and trained to receive absentee ballots outside the board of elections office;
- (2) The board of elections must have sufficient additional staff at the board office to continue the successful operation of all other duties of the board of elections;
- (3) The board of elections must provide the bipartisan team with an appropriate container into which the delivered absentee ballots will be received and maintain the secure and bipartisan chain of custody of the ballots until they are deposited and stored under dual lock with other voted ballots inside the board of elections office;
- (4) The board of elections must engage with its law enforcement point of contact to develop a plan for appropriate traffic control while the drive-through system is being utilized;
- (5) The board of elections must post appropriate signage outside the board of elections office instructing voters on where to park or drive to return absentee ballots;
- (6) The board of elections must set a schedule of days and hours during which bipartisan teams of board employees will be stationed outside the office of a board of elections to receive absentee ballots and publicize that schedule on the board's website and social media. The staffed collection schedule may begin when early, in-person voting begins but must conclude at 7:30 p.m. on Election Day;²
- (7) The board must require the bipartisan team of board employees to require any person assisting another with the return of a ballot to complete [Form 12-P: Absentee Ballot Delivery Attestation](#) as required by Directive 2024-21; and
- (8) If there is a line for drive-through ballot drop off, the board of elections must mark or personally monitor³ the last voter in line at 7:30 p.m. on Election Day to allow those who are in line at 7:30 p.m. to drop off their ballot.

Additionally, boards of elections should consider the following best practices when implementing a streamlined, bipartisan ballot drop-off plan:

² If a court order is issued extending voting hours on election day, the Secretary of State's office will provide additional guidance.

³ The bipartisan team must mark or personally monitor the last voter in line at 7:30 p.m. on Election Day in a manner similar to how precinct election officials mark or personally monitor lines at a polling location.

- Use of directional signage and traffic cones for traffic management. Boards of elections may coordinate with their county engineer or local road department to borrow such assets;
- Provide board staff with reflective vests for their safety and to designate them as official board staff;
- Provide sufficient quantities of “I voted” stickers, poll worker recruitment flyers, and the attached election security sheet to provide to voters who utilize the drive-through ballot drop off;
- Provide a pop-up canopy to shield elections officials from the elements; and
- Coordinate with local media to publicize designated dates and times for drive-through ballot drop off.

A reminder for board employees receiving absentee ballots that any allegation of ballot harvesting must be reported to the Public Integrity Division – Election Integrity Unit of the Secretary of State at EIU@OhioSoS.gov. My office will vigorously investigate and refer for prosecution any individual engaged in ballot harvesting in violation of Ohio law.

If you have any questions concerning this Advisory, please contact the Secretary of State’s elections counsel at (614) 728-8789.

Yours in service,

Frank LaRose

Vote-by-Mail Ballot Collection Program Outside the Board Office November 5, 2024 Presidential General Election

Purpose

To offer the voters of Cuyahoga County with expanded options to deliver their Vote-by-Mail (VBM) Ballot Applications and Voted Ballots to the Director of the Board of Elections.

Background

The Cuyahoga County Board of Elections (CCBOE) is a leader in the State of Ohio for the number of Vote-by-Mail (VBM) Ballots requested and received for any given election. There is a significant increase of VBM utilization in Presidential General Elections and the November 5th election is trending in this direction. The CCBOE has received over 145,000 VBM Ballot Applications as of October 3, 2024.

During the previous four (4) Presidential General Elections the CCBOE witness large volumes of voters personally delivering their completed VBM Ballot Applications and Ballots to the CCBOE permanent drop box located at 2925 Euclid Avenue. The voluminous number of voters converging to the CCBOE resulted in logistical challenges and at times posed a safety risk to both voters dropping off their ballots and those participating in Early In-Person (EIP) Voting. The issuance of SOS Directive 2024-21 on August 31, 2024 adds additional logistical challenges for staff and voters that will most likely result in increased traffic congestion on and near CCBOE property.

For the upcoming Early In-Person Voting period, the CCBOE will have tents erected in the Hughes Building parking lot to provide more shelter from inclement weather and a safer separation from vehicle traffic while waiting in line to vote. These responsible preparations impact vehicle traffic near the CCBOE Early In-Person Voting Center and ballot drop box during voting hours.

Permanent Ballot Drop Box

In accordance with SOS Directive 2023-27, the CCBOE is limited to only one (1) permanently installed, secure drop box outside of its office located at 2925 Euclid Avenue, Cleveland, Ohio 44115. This drop box is monitored by security surveillance 24 hours a day, 7 days a week and voters have access to deposit documents in the drop box during the entirety of the Absentee Voting period.

VBM Ballot Collection Outside the Board Office Plan

For the November 5, 2024 Presidential General Election, the CCBOE will be utilizing bi-partisan teams of employees from the two (2) major political parties during the Absentee Voting period to collect ballot applications, voted ballots, and SOS Form 12-P outside the Board of Elections pursuant to Directives 2022-45 and 2024-21, and Advisory 2024-03.

The collection site will be in the Campus International High School parking lot at 3100 Chester Avenue, Cleveland, OH 44114. A safe collection area will be constructed with a security camera and law enforcement personnel stationed near the collection location when it is operational. This collection site complements the permanent drop box which will also be accessible to voters during the entirety of the Absentee Voting period. Operations will be conducted in accordance with applicable Secretary of State Directives and Advisories.

Schedule of Days and Hours for the Collection of VBM Ballots Outside the Board Office

The Campus International High School collection location will be active to collect VBM Ballots and SOS 12-P Forms on a schedule similar to the EIP Voting schedule. The hours of operation for this collection site are as follows:

- Friday, October 11, 8:00 a.m. – 5:00 p.m.
- Weekdays, October 14 – October 18, 8:00 a.m. – 5:00 p.m.
- Weekdays, October 21 – October 25, 8:00 a.m. – 6:00 p.m.
- Saturday, October 26, 8:00 a.m. – 4:00 p.m.
- Sunday, October 27, 1:00 p.m. – 5:00 p.m.
- Weekdays, October 28 – November 1, 8:00 a.m. – 7:00 p.m.
- Saturday, November 2, 8:00 a.m. – 4:00 p.m.
- Sunday, November 3, 1:00 p.m. – 5:00 p.m.

On an as needed basis, the Director is authorized to make modifications to the hours of operation based on reasonable cause, such as weather conditions, voter usage, safety needs, etc. Additionally, at the discretion of the Director, he is authorized to staff and operate the location on an as needed basis the following days:

- Monday, November 4.
- Tuesday, November 5 (not later than 7:30 p.m.).

Any adjustments to hours and days of collection will be noted on the CCBOE's website.

November 5, 2024 Presidential General Election
Ballot Order - Final

The following is the ballot order for the November 5, 2024 Presidential General Election. The Cuyahoga County Board of Elections (CCBOE) Election Day Ballot Order first looks at the Election Day turnout %, by precinct, from the last four Presidential General Elections. It takes the highest turnout % and then multiplies it by the current number of registered voters (Active and Inactive). This total is then added to the highest number of provisional ballots cast (rounded up to the nearest 5) from the past four Presidential General Elections in each precinct. Finally, this total is multiplied by 120% (or an additional 20% is added) to determine the ballot order for each precinct (rounded to the nearest 25).

The final order can be found below:

Resignation Documents

Mayfield Heights Residents,

It is with a heavy heart that I announce my resignation from Mayfield Heights City Council effective immediately. My wife and I have made the difficult decision to relocate out of state to be closer to my son and his family. It has been an honor to serve the constituents of this great city for the last 10+ years.

The last name DeJohn and Mayfield Heights have been intertwined for the last 72 years. This started when my father, Ross C, DeJohn moved to the city in 1952 He was elected to council in 1962 and Mayor in 1964, before retiring from office in 1993. He is the longest serving Mayor in the history of the city and oversaw unprecedented growth that put Mayfield Heights at the top of the list of East Side Cleveland suburbs. I'd be remiss if I didn't say how much it pains me that the promise was not kept to put my Dad's name on the new community center after his many years of service to the city. I aspired to be like my Dad by putting the constituents first, and continuously keeping your best interests in mind.

In the next 45 days, the council will get the opportunity to interview and appoint a person to fill the rest of my unexpired term (1.5 years), I am recommending to the council that Gayle Teresi fill my seat for the remainder of the term. Gayle has over 15 years of experience on Mayfield Heights Council and served the constituents diligently. There is no one who understands the city better and the issues at hand. Gayle has my full endorsement and is truly the best candidate for the position.

I want to thank the residents of Mayfield Heights for giving me the great opportunity to represent you as a member of the Mayfield Heights City Council. I will miss my daily interactions with you and listening to the things you cared about the most. My one ask is that you continue to pay attention to the decisions that are being made on your behalf. If there is something that you disagree with, please speak up! Always remember that the Mayor and City Council represent you and your opinions matter.

Once again, thank you for your support these past 10+ years. I will watch from afar and wish nothing but the best for this great city and its residents. While I am no longer on council, that does not mean we can't stay in touch. Please feel free to reach out if you need anything or just want to catch up.

I wish you nothing but the very best and God bless you all.

Respectfully,

Bob DeJohn

Hi Dana,

Received; thanks for the update. When you swear in the new councilmember, we'll need a copy of their signed oath of office and the attached certification completed. Attached is also the reminder flyer from the Ohio Ethics Commission to file the personal financial disclosure. Our Board's appointment policy is also attached for reference.

It appears his term ends 12/31/2025. Can you confirm a special election will not be necessary?

Thanks again and have a great weekend,

Section 731.43 | Vacancy in village legislative authority.

Ohio Revised Code / Title 7 Municipal Corporations / Chapter 731 Organization

Effective: March 17, 1998 Latest Legislation: House Bill 445 - 122nd General Assembly

(A)(1) Except as otherwise provided in division (A)(2) of this section, when the office of a member of the legislative authority of a village becomes vacant, the vacancy shall be filled by election by the legislative authority for the unexpired term. If the legislative authority fails within thirty days to fill such vacancy, the mayor shall fill it by appointment except that, subject to division (A)(2) of this section, when the vacancy occurs because of the operation of section 733.25 of the Revised Code, the successor shall hold office only for the period the president pro tempore of the legislative authority holds the office of mayor.

(2) When a vacancy occurs in the office of a member of the legislative authority of a village with a population of less than two thousand because of the operation of section 733.25 of the Revised Code, at the time the president pro tempore becomes mayor the president pro tempore shall decide whether the president pro tempore wishes to serve the remainder of the president pro tempore's unexpired term as a member of the legislative authority of the village when the mayor's successor is elected and qualified in accordance with that section. If the president pro tempore decides to serve the remainder of the president pro tempore's unexpired term as a member of the legislative authority, the vacancy on the legislative authority shall not be filled and the president pro tempore shall resume serving the president pro tempore's unexpired term on the legislative authority as soon as the mayor's successor is elected and qualified. If the president pro tempore decides not to resume serving the remainder of the president pro tempore's unexpired term as a member of the legislative authority as soon as the mayor's successor is elected and qualified, then the vacancy in the office of member of the legislative authority shall be filled in accordance with this section.

(B) Except as otherwise provided in this division, when the office of a member of the legislative authority of a city becomes vacant either because a member ceases to hold the office before the end of the member's term or because a member-elect fails to take office, the vacancy shall be filled for the remainder of the unexpired term by a person chosen by the residents of that city who are members of the county central committee of the political party by which the last occupant of that office or the member-elect was nominated. If the vacancy occurs in the office of a ward representative in a city where the political party which nominated the last occupant of that office is organized into a city controlling committee with more than one member from the ward where the vacancy exists, the members of the city controlling committee representing that ward shall choose the person to fill the vacancy.

(C) Not less than five nor more than forty-five days after a vacancy occurs, the specified members of the city or county committee shall meet to make an appointment to fill the vacancy. At least four days before the date of such meeting the chairperson or secretary of the city or county committee shall notify each committee member eligible to vote on filling the vacancy by first class mail of the date, time, and place of the meeting and its purpose. A majority of all eligible committee members constitutes a quorum, and a majority of the quorum is required to make the appointment. If election to the office so vacated took place at a nonpartisan election, or if the office was occupied by, or was to be occupied by a person not nominated at a primary election, or if the appointment was not made by the committee members in accordance with this section, the vacancy shall be filled in the same manner as a vacancy in the legislative authority of a village, as provided in this section.

I, Evelyn Martin, am a qualified elector of Cuyahoga (County)

My address is 1394 E 93rd Street, Cleveland (City)

I hereby: (check one box below and fill in remaining information)

Challenge the Right to Vote of Bennie J. Bryant (Name of Person Challenged)

whose Address is 1394 E 93rd, Cleve, Cuyahoga (Street Address) (City) (County)

Request correction of the registration list of Precinct _____ Ward 7

I file this challenge or correction for the following reason(s): I have owned and lived at 1394 E 93rd St (single home) since Feb. 1978.

Bennie J. Bryant has not ever lived here within this time.

PLEASE NOTE: The return of mail, sent by an elections official or any other individual, as undeliverable, unable to forward, or a change of address on file (NCOA) alone is insufficient to grant a challenge or application for correction. Evidence of a foreclosure action alone is insufficient to grant a challenge or correction. The fact that a voter's status is recorded in the Statewide Voter Registration Database as "active-confirmation" (also known as "inactive") alone is insufficient ground to grant a challenge or correction.

I hereby declare under penalty of election falsification that the statements above are true based on my personal knowledge, information or belief.

SUMMARY FOR RONALD JANKE CHALLENGE:

On September 27, 2024, Ronald Janke, a registered voter in Moreland Hills, Ward 00-A, submitted an SOS prescribed Form #257, *Challenge of Right to Vote and Correction of Registration List* that challenges the right of Joshua Lewis to vote using the address of 105 Easton Lane in Moreland Hills.

General Information

- Ronald Janke indicates on the Challenge Form that Joshua Lewis has never lived at the 105 Easton Lane address.
- There are three people currently registered at 105 Easton Lane: Ronald Janke, Mary Ann Janke, and Joshua Lewis.
- Per the Cuyahoga County Property Summary Report, Ronald Janke has been the owner of the property at 105 Easton Lane since July 10, 1984.

CCBOE Comments

Ronald Janke Information

- Ronald Janke has been registered at the 105 Easton Lane address since July 27, 1984.
- According to the voter registration database, Ronald Janke has voted consistently at the 105 Easton Lane address since the 1989 December Special Election.

Joshua Lewis Information

- Joshua Lewis signed a voter registration form on September 26, 2022, listing an address of 105 Easton Avenue in Cleveland. This is his first and only registration card of file with the CCBOE.
- The voter registration form was received at the Cuyahoga County Board of Elections on September 29, 2022, via Black Fork Strategies, and processed on September 30, 2022.
- On September 30, 2022, the voter status of Joshua Lewis was made inactive due to routine SOS and CCBOE quality assurance measures that were unable to verify relevant voter information through the BMV/SSA verification processes. A notice was mailed on September 30, 2022, by the CCBOE to Mr. Lewis, making him aware of the registration data discrepancy.
- Joshua Lewis has not voted in any election since registering, nor has he had any voter activity since registering on September 29, 2022.

Challenge of Right to Vote and Correction of Registration RECEIVED ON

R.C. 3503.24

SEP 27 2024

CUY. CO. BOE.

I, Ronald R Janke am a qualified elector of Cuyahoga County
(County)

My address is 105 Easton Lane, Moreland Hills
(Street Address) (City)

I hereby: (check one box below and fill in remaining information)

Challenge the Right to Vote of Joshua Lewis
(Name of Person Challenged)
whose Address is I do not know his real address, but
apparently his address on the voter roll,
(Street Address) (City) (County)
is my address -- 105 Easton Lane.

Request correction of the registration list of Precinct A Ward 0

I file this challenge or correction for the following reason(s): As detailed more fully in the attachment,
Joshua Lewis has never lived at 105 Easton Lane, Moreland Hills,

OH, where my family have lived for the last 40 years.
The two families who owned this residence before us, since
it was first constructed, did not have anyone named Joshua Lewis living there.

PLEASE NOTE: The return of mail, sent by an elections official or any other individual, as undeliverable, unable to forward, or a change of address on file (NCOA) alone is insufficient to grant a challenge or application for correction. Evidence of a foreclosure action alone is insufficient to grant a challenge or correction. The fact that a voter's status is recorded in the Statewide Voter Registration Database as "active-confirmation" (also known as "inactive") alone is insufficient ground to grant a challenge or correction.

I hereby declare under penalty of election falsification that the statements above are true based on my personal knowledge, information or belief.

Re: Fraudulent Voter Registration

Dear Sir or Madam,

We have received at our home, where we have resided for 40 years, the enclosed card from the Chagrin Gateway Democrats addressed to Joshua Lewis. No such person by that name have ever lived at this address, as we are aware of the occupants of this house since it was built. We know of no one by the name of Joshua Lewis.

In October 2022 we received from your office and the State Elections Division letters addressed to Joshua Lewis advising him that additional information was needed to complete his absentee ballot application for the November 2022 General Election. I advised both of your offices of this apparent attempt at voter fraud. Because of the receipt of this communication from the Chagrin Gateway Democrats and a previous communication, which I have previously forwarded to the State Elections Division, I am concerned that Joshua Lewis may have succeeded in fraudulently registering to vote at our address. I request that you investigate your voting records and make inquiry of the Chagrin Gateway Democrats, who may have information relating to this deception.

Thank you for your attention to this disconcerting matter.

Sincerely,

Ronald R. Janke

TO WHOM IT MAY CONCERN:

In October 2022 we received at our home address, 105 Easton Lane, Moreland Hills, OH 44022, a mailing from the Cuyahoga County Board of Elections and another one from the Ohio Secretary of State to Joshua Lewis. Both documents informed him that additional information was needed to complete his application for an absentee ballot and urged him to do so. I contacted both agencies in October 2022 to advise them that no such person currently lived at that address or had ever done so. My family has resided here since 1984. We know the previous two families who lived here since the house was built. No one named Joshua Lewis has ever lived here. We know of no one named Joshua Lewis.

I thought that this attempted voter fraud had been thwarted until we received three pieces of mail again this summer addressed to Joshua Lewis, the most recent of which was from the Chagrin Falls Democrats urging him to vote. I have again contacted both agencies and have received from the County Board of Elections a Challenge of Right to Vote and Correction of Registration List, which I am today mailing to the Board.

I can only assume that organizations are accessing Ohio voter registration records of some sort to obtain the name Joshua Lewis connected to this fraudulent address. I request that the name Joshua Lewis be removed from any voter registration list or other voter information record connected with 105 Easton Lane, Moreland Hills, OH 44022 to prevent any further attempts at voter fraud and misuse of voter records.

Sincerely,

Ronald R. Janke
