

## Curbside Voters

Curbside voting is the process followed when a person who is physically unable to enter a polling location can send another person inside to inform the PEOs of his/her desire to vote. The VLM must determine and assign two (2) PEOs of opposite political parties must complete the steps in this guide.

## Curbside Voting Procedures

Using the **CURBSIDE ONLY EPB**, labeled with a **YELLOW** tag, the PEOs will go outside to the voter and follow the steps below to complete the check-in process.

The **CURBSIDE ONLY EPB and Printer** must remain on and connected to power and the MiFi unit. The EPB may remain asleep unless being used to process a Curbside Voter.

## Curbside Check-In

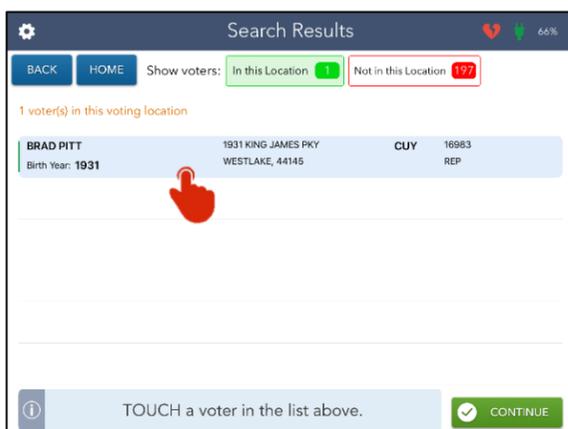

To process a voter with a driver license or state ID, press the **GREEN Driver License/State ID Scan** button to scan the barcode on the back of the identification.

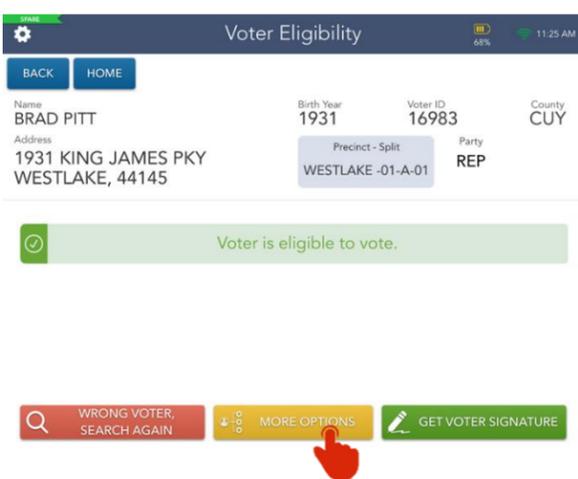

To process a voter with another form of identification, press the **YELLOW Other ID** button to search for the voter by manually entering information.

To process a voter that has moved, you are unable to find in the EPB or does not have proper ID, press the **RED Precinct Lookup** button.

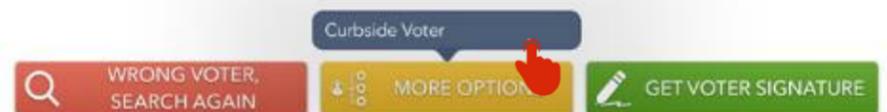

A list of voters that meet the search criteria will appear. This screen defaults to voters that are registered in your Polling Location. Select the correct voter record and press the **GREEN CONTINUE** button.

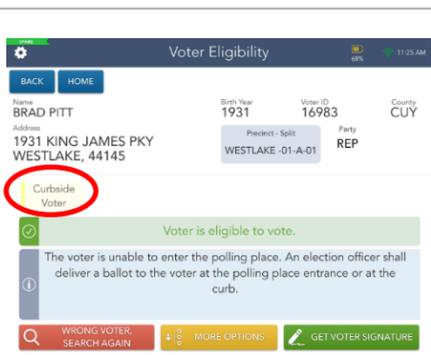

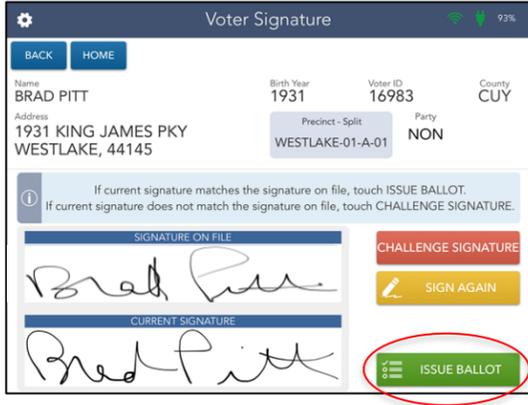

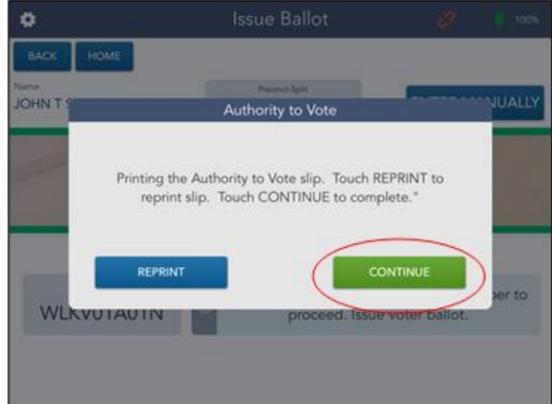

Press the **YELLOW MORE OPTIONS** button.

From **MORE OPTIONS**, select **Curbside Voter**.
