

Curbside Voters

Curbside voting is the process followed when a person who is physically unable to enter a polling location can send another person inside to inform the PEOs of his/her desire to vote. The VLM must determine and assign two (2) PEOs of opposite political parties to complete the steps in this guide.

Curbside Voting Procedures

Using the **CURBSIDE ONLY EPB**, labeled with a **YELLOW** tag, the PEOs will go outside to the voter and follow the steps below to complete the check-in process.

The **CURBSIDE ONLY EPB and Printer** must remain on and connected to power and the MiFi unit. The EPB may remain asleep unless being used to process a Curbside Voter.

Curbside Check-In

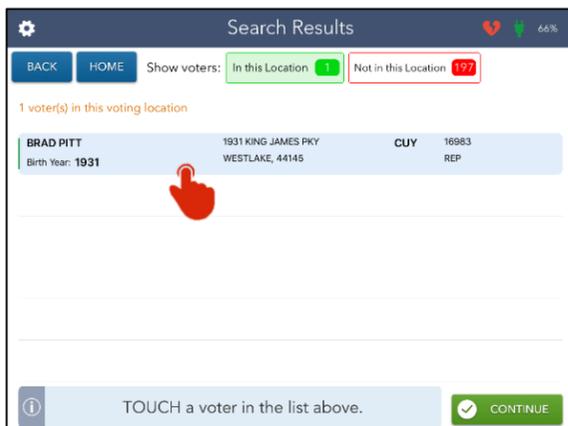

To process a voter with a driver license or state ID, press the **GREEN Driver License/State ID Scan** button to scan the barcode on the back of the identification.

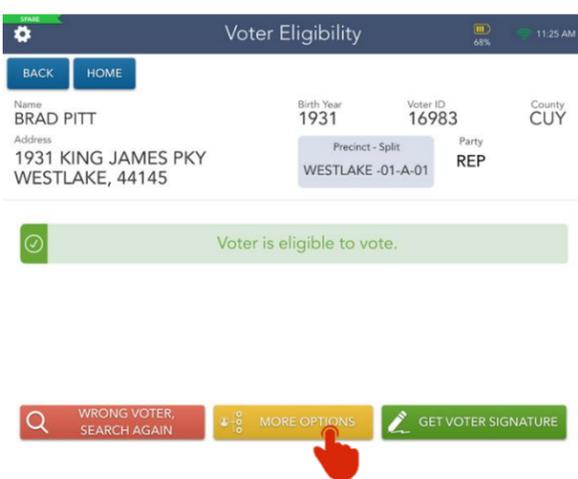

To process a voter with another form of identification, press the **YELLOW Other ID** button to search for the voter by manually entering information.

To process a voter that has moved, you are unable to find in the EPB or does not have proper ID, press the **RED Precinct Lookup** button.

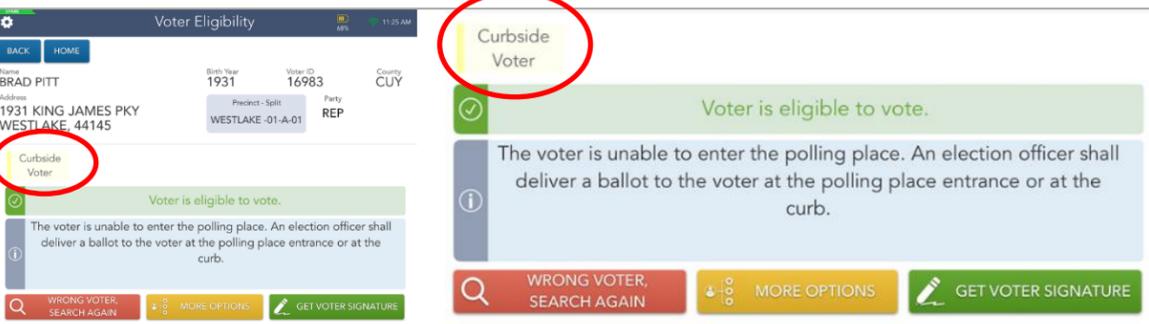

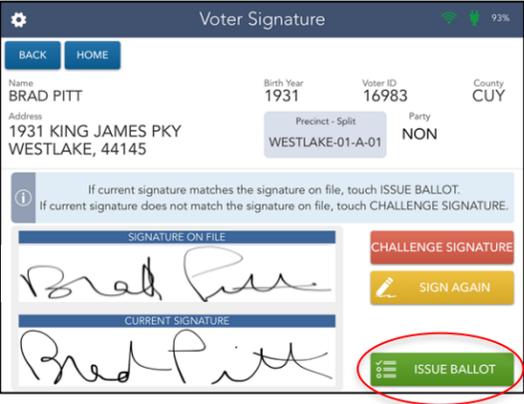

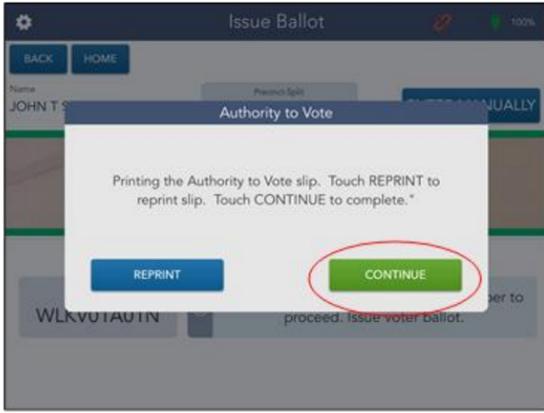

A list of voters that meet the search criteria will appear. This screen defaults to voters that are registered in your Polling Location. Select the correct voter record and press the **GREEN CONTINUE** button.

Press the **YELLOW MORE OPTIONS** button.

From **MORE OPTIONS**, select **Curbside Voter**.

<p>The Voter Eligibility screen will now show the YELLOW box indicating a Curbside Voter is being checked in.</p>	
<p>A confirmation box will pop up to confirm this voter is requesting to vote curbside. Press the GREEN YES button.</p>	
<p>Press the GREEN GET VOTER SIGNATURE button.</p>	
<p>Hand the unit to the voter and allow him/her to sign the EPB using the styli or finger cot. Once the voter has pressed DONE, compare the voter's signatures. If they look similar, press the GREEN ISSUE BALLOT button.</p>	
<p>Go back inside the polling location with the EPB. The EPB must be in the range of the MiFi unit and the CURBSIDE ONLY printer.</p>	
<p>The "Authority to Vote" window will appear. After the voter's Authority to Vote Slip has printed from your printer, press the GREEN CONTINUE button.</p> <p>If your slip does not print, press the BLUE REPRINT button to print another slip.</p>	
<p>Hand the Authority to Vote Slip to the Ballot Official. He/She will provide you with the correct ballot (City/Ward/Precinct/Party) from the Ballot Table for you to scan the stub in the EPB.</p>	
<p>Write the Polling Location Name, City, Ward, and Precinct on the outside of the RED Curbside Ballot Envelope before bringing it out to the voter.</p>	
<p>Take a flat board, the RED Curbside Ballot Envelope, a pen, and the ballot to the voter. Allow the voter privacy to mark the ballot before sealing it inside the envelope.</p>	
<p>Ensure the completed RED Curbside Ballot Envelope is packed in the Clear Provisional & Curbside Pouch of the corresponding precinct.</p>
